Six-Year Strategic Plan

Date Profile Updated: January 2010

Who Can I Contact At DBHR For More Information?

Primary Contact Information:

Steve Smothers, Lead
Prevention Services
(360) 725-3767, smothsw@dshs.wa.gov

Alternate Contact Information:

Michael Langer, Supervisor,
Prevention and Treatment Services
(360) 725-3740, langeme@dshs.wa.gov

What Is The Program Description?

Counties develop six-year strategic plans for the continuum of prevention, intervention, treatment, and aftercare, (PITA) in collaboration with the communities they serve.

What Populations Are Served/ Who Is Eligible For These Services?

County-wide prevention and treatment services will be provided. Eligibility depends on specific services and established priorities.

How Many People Are Served During The Biennium?

The number of people served varies by county, need, and available funding.

What Is The Biennial Funding Amount and Source(s)?

Prevention and treatment funding are specified for each county. Funding sources include Federal block grant dollars and funding allocated by the state legislature.

What Would Be The Impact If This Program Was No Longer Available?

Planning for the PITA continuum is the foundation of providing effective, relevant, and cost-effective prevention and treatment services.

What Agencies Collaborate With DASA To Deliver These Services?

Department of Commerce, Community Mobilization against Substance Abuse and Violence collaborated in developing guidelines for the prevention strategic planning process, and has similar requirements, although there are some variations. Both CMASA and DBHR include checklists of planning requirements with overall guidelines for providers to follow as they develop county strategic plans.

What Are The Sources For Program Data or More Information?

Regional offices will maintain records of strategic plans for counties within their catchment area.

Any Other Comments?

The update prevention portion of the plan has been put on hold until further notice because of the prevention redesign.
